Electronics & Telecommunication Engineering graduate with foundational knowledge of IT support, operating systems, networking, hardware troubleshooting, and customer support through Cisco Networking Academy training. ISTQB CTFL certified with strong analytical, documentation, and troubleshooting skills, eager to contribute as an IT Support Apprentice while learning enterprise IT operations.

EDUCATION

Bachelor of Engineering in Electronics and Telecommunication Engineering

Aug 2019 - May 2023

Terna Engineering College, University of Mumbai

GPA: 8.13 of 10

Relevant Coursework: Computer Communication Networks, Cloud Computing & Security, Database Management System (DBMS), Management Information System (MIS), Project Management

SKILLS

IT Support & Troubleshooting: Operating System Support, Hardware Troubleshooting, Networking Fundamentals, IT Customer Support, Security & Connectivity Basics

Programming & Scripting: Python, Basic Java, Basic JavaScript

Software Testing: ISTQB CTFL Certified, SDLC, STLC, Agile, Test Case Design, Bug Reporting, Functional Testing, Regression Testing, API Testing Fundamentals

Automation: Selenium WebDriver (Python), Test Automation Basics

Database: MySQL (Basic SQL Queries)

Version Control & Collaboration: GitHub, Jira

Tools & Platforms: Visual Studio Code, PyCharm, Postman (Learning), Microsoft Excel, Google Sheets

AI Productivity Tools: ChatGPT, Claude, Gemini

WORK EXPERIENCE

Analyst (Apprentice)

Mar 2024 - May 2024

eClerx Services Ltd

Navi Mumbai

- Performed data validation and quality checks to maintain accuracy and consistency of operational records.
- Followed standard operating procedures (SOPs) and maintained process documentation to support compliance and workflow efficiency.
- Identified, documented, and escalated data discrepancies for timely resolution.
- Collaborated with team members to complete assigned tasks within defined service timelines.
- Prepared daily operational reports and tracked task status to ensure timely completion and process visibility.

PROJECTS

SauceDemo Test Automation Framework (Selenium + Python) [↗](#)

- Developed automated test scripts for SauceDemo web application using Selenium WebDriver and Python, covering Login, Product Selection, Cart, and Checkout workflows
- Automated execution of 20+ test scenarios, reducing repetitive manual testing effort and improving test execution consistency
- Maintained version-controlled test scripts using GitHub, enabling easier test maintenance and repeatable regression testing

E-Braille Assistive Learning System (Raspberry Pi + Python) [↗](#)

- Developed a Braille learning system using Raspberry Pi, Python, and solenoid hardware to generate tactile output with audio guidance
- Implemented practice and quiz modules with real-time input validation, improving user interaction and response accuracy
- Built a low-cost solution (~₹10,000) compared to traditional devices (~₹2,00,000), increasing accessibility for visually impaired users

Amazon.in – Manual QA Testing Project (E-commerce Application) [↗](#)

- Designed and executed 50+ manual test cases covering Login, Cart, Payment, Orders, and Prime Membership workflows
- Performed functional, negative, and regression testing to validate end-to-end user journeys
- Validated payment processing, cart management, and order lifecycle workflows across multiple test scenarios
- Prepared structured test documentation including test cases, bug reports, and execution summaries
