ISTQB CTFL-certified Software Tester with hands-on experience in manual testing, test case design, functional and regression testing, defect reporting, API testing with Postman, SQL/MySQL database validation, and Selenium automation using Python. Familiar with SDLC, STLC, and Agile methodology.

SKILLS

Software Testing: Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Negative Testing, Exploratory Testing, Boundary Testing, End-to-End Testing, Test Case Design, Test Execution

API & Database Testing: API Testing, Postman, SQL, MySQL, Database Validation, Data Validation

Test & Defect Management: Jira, Bug Reporting, Defect Tracking, Defect Retesting, Severity & Priority Classification, Test Documentation, Test Execution Reports

Automation Testing: Selenium WebDriver, Python, Test Automation, Web Automation, Explicit Waits

Methodologies & Tools: SDLC, STLC, Agile Methodology, Git, GitHub, Microsoft Excel, Google Sheets, Visual Studio Code, PyCharm

WORK EXPERIENCE

Analyst (Apprentice)

Mar 2024 - May 2024

eClerx Services Ltd

Navi Mumbai

- Performed **data validation and quality checks** to identify inconsistencies and maintain accuracy of operational records.
- Followed established **Standard Operating Procedures (SOPs)** and quality guidelines while completing assigned operational tasks.
- Identified and documented **data discrepancies** and escalated them according to defined procedures for resolution.
- Maintained operational documentation and prepared **daily reports** to support task tracking and workflow visibility.
- Completed assigned tasks within defined timelines while maintaining **accuracy and quality standards**.
- Collaborated with team members and supervisors to support the smooth execution of day-to-day operational activities.

PROJECTS

Amazon.in – Manual QA Testing Project [↗](#)

- Designed and documented **50+ manual test cases** covering Cart, Payment, Travel, Gift Cards, and Prime Membership workflows.
- Performed **functional, negative, validation, boundary, exploratory, and regression testing** on key e-commerce user flows.
- Identified and documented **15+ defects** with reproduction steps, expected and actual results, severity, and priority.
- Tested **end-to-end flows** such as cart and purchase, payment validation, Prime Membership, travel booking, and gift card workflows.
- Created structured **test case and bug report documentation** using Microsoft Excel.

SauceDemo Test Automation Framework – Selenium + Python [↗](#)

- Developed **Selenium WebDriver automation scripts using Python** to test the SauceDemo login, product selection, cart, and checkout flow.
- Implemented **explicit waits and element validations** to improve test execution and verify key steps in the checkout process.
- Automated an **end-to-end purchase flow** from user login to successful order confirmation.
- Used **GitHub for version control** and to maintain the automation test scripts.
- Supported **repeatable testing** of the main SauceDemo shopping workflow through automated execution.

EDUCATION

Bachelor of Engineering in Electronics and Telecommunication Engineering

Aug 2019 - May 2023

Terna Engineering College, University of Mumbai

GPA: 8.13 of 10

Relevant Coursework: Computer Communication Networks, Cloud Computing & Security, Database Management System (DBMS), Management Information System (MIS), Project Management

CERTIFICATIONS

Certified Tester Foundation Level (CTFL) [↗](#) by ISTQB

Mar 2025

Postman API Fundamentals Student Expert [↗](#) by Postman

Manual Training Program at Qualitrix by Qualitrix
