Electronics and Telecommunication Engineering graduate with ISTQB CTFL certification, QA training, and practical knowledge of software testing, IT support, networking, SQL, Python, API testing, electronics, and technical documentation. Seeking entry-level opportunities to apply my technical knowledge across diverse technology and engineering roles.

SKILLS

Programming & Scripting: Python, JavaScript

Software Testing: Manual Testing, Test Case Design, Bug Reporting, Functional Testing, Regression Testing, SDLC, STLC, Agile, Software Testing Fundamentals

Test Automation & API Testing: Selenium with Python, Postman, API Testing, REST API Fundamentals, Request/Response Testing

Database & SQL: MySQL, SQL Queries, SELECT, WHERE, ORDER BY, INSERT, UPDATE, DELETE

Tools: Jira, GitHub, Git, Visual Studio Code, PyCharm, Microsoft Excel, Google Sheets

Documentation: Technical Documentation, Troubleshooting Guides, Test Documentation, Support Documentation

AI & Productivity: ChatGPT, Claude, Gemini, AI-assisted Research and Productivity

WORK EXPERIENCE

Analyst (Apprentice)

Mar 2024 - May 2024

eClerx Services Ltd

Navi Mumbai

- Performed data validation and quality checks to identify discrepancies and maintain accuracy of operational records.
- Followed established SOPs and quality procedures while completing assigned operational tasks within defined timelines.
- Documented discrepancies and escalated issues according to defined procedures for resolution.
- Maintained operational documentation and prepared daily reports to support workflow tracking and process visibility.
- Collaborated with team members and supervisors to resolve routine operational issues and maintain smooth day-to-day activities.

PROJECTS

IT Support & Troubleshooting Lab 

- Performed practical Windows and system troubleshooting covering Device Manager, Windows Update, system performance, storage, security settings and application-related issues.
- Troubleshoot network connectivity using **IP addressing, DNS, DHCP, Ping, NSLookup, Tracert and basic LAN/Wi-Fi checks**.
- Documented troubleshooting steps, observations, resolutions and system information using structured technical support documentation.
- Created an **IT asset inventory, asset allocation log and laptop onboarding checklist** to simulate basic IT support and asset management activities.
- Outcome:** Completed **7+ practical troubleshooting activities** and created **3+ support and asset-management documents** for repeatable issue handling.

Mini Trading Order Management & Monitoring System 

- Developed a basic **Python-based REST API** using FastAPI to simulate trading order creation and monitoring.
- Implemented API endpoints and validated request data while troubleshooting HTTP responses including **422 validation errors and 500 server errors**.
- Configured and tested application connectivity with **MySQL** and investigated database connection and configuration issues during development.
- Tested the application through **API documentation and health-check endpoints** and documented troubleshooting findings and incidents.
- Outcome:** Built and tested a working API prototype with **multiple API endpoints, validation handling and documented troubleshooting scenarios**.

E-Commerce API Testing Project 

- Created and executed API test scenarios for **login, authentication/token handling and add-to-cart functionality** using Postman.
- Validated HTTP requests, responses, authentication, response data and expected API behavior against defined test cases.
- Prepared structured **API test cases and test execution reports** to document test coverage and results.
- Used Postman collections and environments to organize API requests and support repeatable testing.
- Outcome:** Completed **20+ API test scenarios** and documented execution results in structured test reports.

EDUCATION

Bachelor of Engineering in Electronics and Telecommunication Engineering

Aug 2019 - May 2023

Terna Engineering College, University of Mumbai

GPA: 8.13 of 10

Relevant Coursework: Computer Communication Networks, Cloud Computing & Security, Database Management Systems, Management Information Systems, Project Management

CERTIFICATIONS

Certified Tester Foundation Level (CTFL)  by ISTQB

Mar 2025

Postman API Fundamentals Student Expert  by Postman

Cisco IT Customer Support Basics by Cisco Networking Academy
Cisco Operating Systems Support by Cisco Networking Academy
Cisco Hardware and Upgrade Support by Cisco Networking Academy
Manual Training Program by Qualitrix Technologies
